

ATA Carnet – ADD FROM CATALOG

16 January 2019

DANSK **ERHVERV** Test

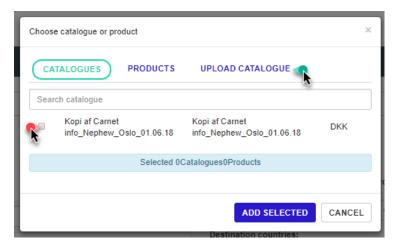

Upload Catalog and then use catalog

Content in the ATA Carnet

Load the Catalog into ATA Carnet

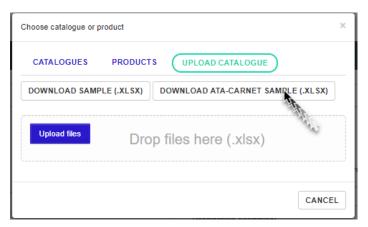

Upload Catalog:

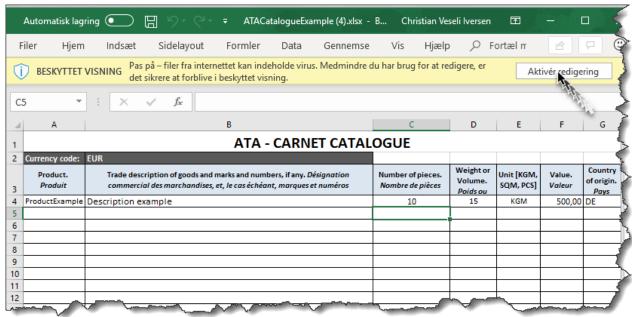

You can download two Catalog samples.

- DOWNLOAD SAMPLE (.XLSN)
- DOWNLOAD ATA-CARNET SAMPLE (XLSN)

most used for master data

most used for ATA Carnet (catalog is fitting ATA)

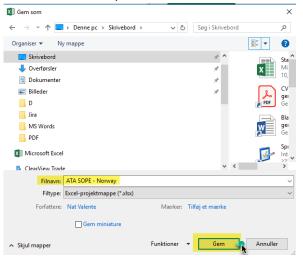

After activating editing....

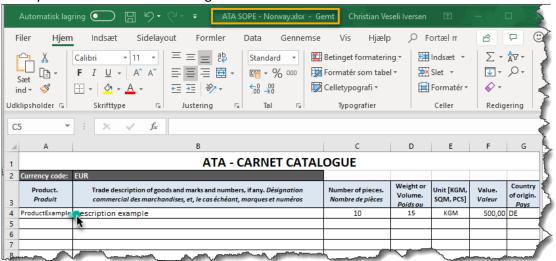

SAVE the file locally:

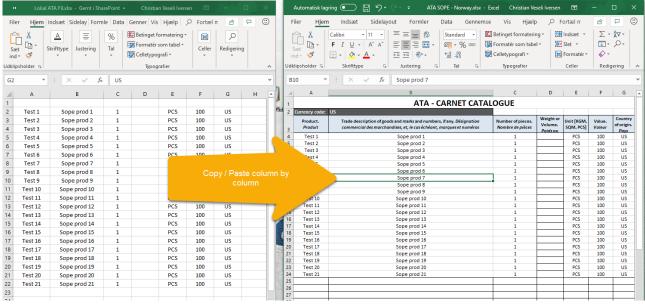

Start by:

B2: If your value is not EUR - change it....

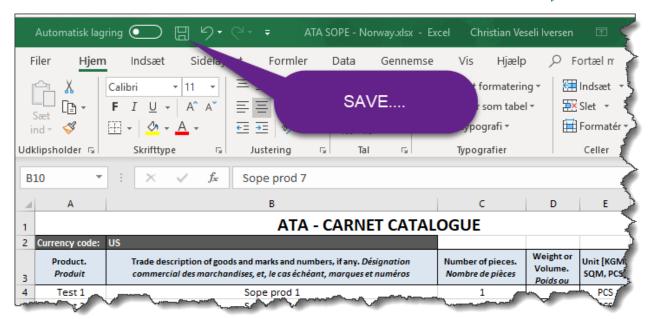

Next you can start type information in A4 or copy/paste from an existing local Excel file... Copy/Paste:

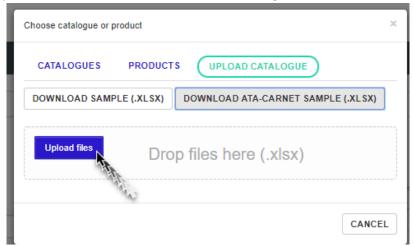

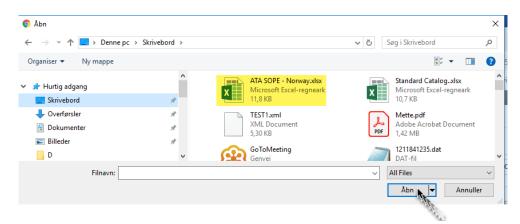

After Copy / Paste remember to save the file...

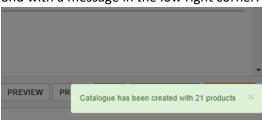

Now back to the application where we left it, before downloading:

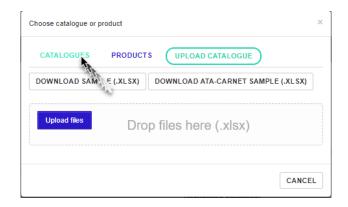

The application will shortly respond with a message in the low right corner:

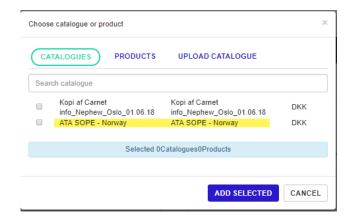

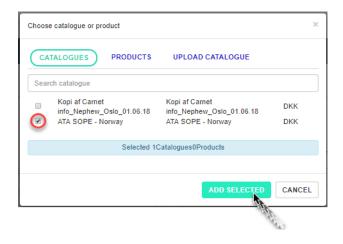

Click on:

And you will see the catalogues "ATA SOPE – Norway" has been add to list:

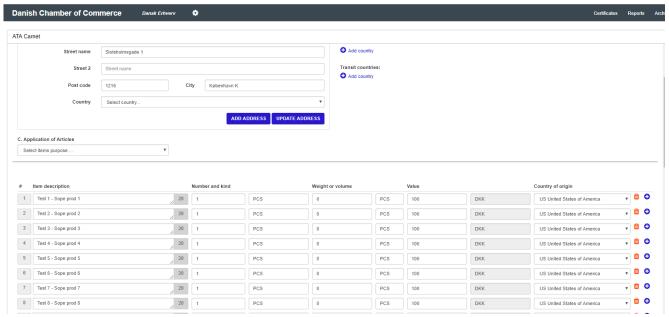

Set check-mark + ADD selected:

And the ATA form will be updated with the content accordantly:

DANSK **ERHVERV** Test

From here you can:

- Overwrite / change content in every field if needed
- Add individual item lines
- Delete item lines

You can also change value on all item lines:
